Our Cover

When the Montgomery Amateur Radio Club (MARC), KV3B, in Rockville, Maryland, was looking for a low-cost, fun, and easy-to-build, yet useful club build project, club member Bob Fontana, AK3Y, designed “A Wi-Fi-Reconfigurable Multiband WSPR Transmitter” that fit the bill. All classes of licensee can use this transmitter, making it a great way for Technicians to use their HF privileges. Twenty-five hams built this project with MARC — try it with your club!
